

Sept 9th 2018
Horse Drawn Equipment

Greetings to All~

Sunday September 9, 2018. We will be celebrating our 44th annual Early Farm Days and would love to share the day with you. We will be featuring "Horse Drawn Equipment". Hoping to see lots items from field to town to harness to bells, so many things one could bring to share with others.

We are planning a full day with threshing, music, food, a petting zoo and horse drawn wagon rides, and a great variety of gas and steam engines and equipment, all along the beautiful riverside. While at the show please stop in and see the museum and log house.

As always we invite you to share your exhibit with us. This is a free event to exhibitors and the public, thus we encourage you to support our great food and beverage stands.

To help you check in sooner, please fill in the registration form ahead of time and just hand it in to receive your plaque, registration is at the south end of the park near the threshing. If you are interested in membership the cost is \$10 and \$100 life time.

Thanks & hope to see you soon!
