

# CAN A CHICKEN SAVE THE WORLD?

PROBABLY NOT..... BUT CHICKENS COULD HELP MAKE OUR CITY MORE SUSTAINABLE, GREEN, AND PROGRESSIVE (AND DON'T FORGET THE EGGS!)

Call or Email your City Council representatives and ask them to support Chapter 6.17 to safely keep and maintain up to five chickens within the City of Eau Claire:

## Points you might want to emphasize with City Council Members:

Hens make great pets and are not loud animals

Hens make it possible to enjoy beautiful fresh, nutritious and healthy eggs

Hens are educational for children and youth

Hens complement Eau Claire's sustainability initiatives, add to the city's accomplishments as an eco-community, and support local food production.
